We build trust since... 2008

The only truth in the universe according to Indian Philosophy is the Atma (Soul, Self, Universe Energy, Consciousness or God) that is the sole reality. Everything else is perishable. Innumerable changes happen in nature, but the Atma always remains constant. It neither has a beginning, nor an end. It is immortal.

The Atma (Soul) existed before the concept of any other form of God. Contemplation and meditation on the Atma even for a moment can lead us towards the experience that we and the Atma are the same self-realization. This is the same state we see to achieve by the practice of

The Atma (Soul) is present in one and all and resides in our heart. The easiest and the most effective way to attain the state of Yoga is to meditate on the Atma in our heart. Since the Atma is formless without any physical properties. It is easier if we meditate on form. The most effective being that of the Sadguru one who is constantly absorbed in Atma and constant meditation on his form in one's heart we surely lead to self-realization.

The Atma (Soul) is omnipotent, omnipresent and omniscient. It does not belong to any particular country, religion or cast. Every human being can attain God by means of worship and contemplation on the Atma. Jesus Christ, Prophet Mohammed, Shri Krishna, Guru Nanak, Lord Mahavir, Prophet Zarathustra, Lord Buddha and other saints throughout history all attained self-realization becoming one with God, by constant meditation and contemplation on Atma.

**INTEGRITY OF SUPREME POWER THE SOUL WHICH IS INFINITY AND GRACE OF SADGURU
ATMA MALIK LEADS INFINITY...**

Infinity Fabtech Pride to be able to contribute to any amount, towards the environment and help conserve our natural and non-renewable resources of energy. By using energy efficient production methods and optimizes all PEB Process, we generate less waste and provides healthier spaces for occupants as compared to a conventional building. Our buildings made from Steel are Green, as the design and construction material used significantly reduces or eliminates the negative impact of buildings on the environment and its occupants.

- Our buildings are 98% steel which is recyclable up to 90%
- We employ energy efficient methods for steel building production that helps to substantially reduce greenhouse gas emissions (also reduce C-Factor)
- Our Buildings are engineered, designed and conceptualizing keeping in mind the local climate and available sources including sun, wind, rain etc. So that everything could be incorporated beneficially for the design of the building
- We use natural ventilation systems in our buildings for proper air changes, keeping the temperature in control and thus providing a comfortable indoor environment which further requires minimal use of electricity
- We use insulated and reflective roof and wall systems steel coated with Galvalume which reduce heat transfer and provides better thermal insulation. This also reduces the energy consumption in comparison to conventional building.

THRUST

Our growth in the last 11 year of service have been recognized and awarded on several occasions. We are proud and happy for the same and are working to attend higher and higher positions and recognition in global construction sectors. We are expanding the marketing and production facility across India and emerge as a global construction company. We are the company that is more referred, preferred and recommended by consultants, architects, builders and clients. We have an infinite, ensuring you the best quality steel building with the highest value for every penny investment.

we are infinity, we are for quality, commitment and thrust.

About us

Infinity Fabtech Pvt. Ltd. is a pre-engineered steel buildings manufacturing company. The company, founded in 2008, began as a Pre fab steel structure company called Infinity Steel Works. After gaining significant experience in the industry and following the construction trends in the country, the promoters established Infinity Fabtech Pvt. Ltd. Company, which commenced operation in 2016.

Within a short span of 11 years, we have built over 5.2 million square feet of buildings at various locations in India and over 500+ projects representing a wide variety of structures and virtually every type of industry. Timely completion and professional execution are the hallmark of the company. We believe in delivering on our commitments. This is why our clients reward us with so much repeat business - over 65% of our projects come from existing clients who have confidence in our ability to meet their expectations without compromising on quality.

Advantages & Features

Larger spans

Up to 60 meters without any columns in between.

Faster construction

Time saved is money earned. PEB save 50% construction time compared to conventional methods. 30,000 sq. feet building can be made ready for occupation within 10-12 weeks.

Cost effective

Optimum utilization of materials, built-to-design steel sections, and fast construction, all lead to direct & indirect cost savings. Reduce foundation cost with wider bay spacing

Single source responsibility

Project co-ordination, Construction management & Cash flow management etc. become easy, effective & predictable since you are not dealing with lots of agencies.

Re-locatable

PEB permit future expansions & relocation through easy dismantling & reassembling.

Custom designed

To suit specific need of the customer & the location.

Peace of mind guaranteed

Reputed, reliable, well equipped manufacturer undertaking the turn- key responsibility is a big relief. You can be rest assured of a quality job, delivered in time.

APPLICATION

- ♦ Industrial sheds
- ♦ Workshops
- ♦ Showrooms
- ♦ Exhibition halls
- ♦ Sports halls
- ♦ Auditoriums
- ♦ Convention halls
- ♦ Schools
- ♦ Food Courts
- ♦ Service stations
- ♦ Transport Terminals
- ♦ Aero plane Hangars
- ♦ Parking Lots
- ♦ Site-housing
- ♦ Rail yards
- ♦ Loco sheds
- ♦ Cold stores
- ♦ Distribution centers

Our Vision

To be recognized as the bench mark in the steel buildings industry; this will be accomplished through Product Perfection, Engineering Excellence and the Best customer services in the industry.

Our Mission

Our mission is to offer high-quality services and steel products to our clients across the globe. Our motivated employees are mainly focused on providing services with highest business standards. Some other added values of our company are work ethics and corporate citizenship.
